The Team Approach for Single-Visit Digital Implant Surgery and Immediate Provisionalization

In Association with Verch Dental Ceramics

Thursday, March 2, 2017

PROGRAM DESCRIPTION

Digital dentistry is quickly becoming an important factor in our current standard of care. It is changing the economics, efficiencies and quality of dental treatment. It is not an issue of if you’re going to adopt it, but when. The question to ask is really, “will you incorporate it soon enough to create a competitive advantage for your practice?” This program will provide surgical specialists with an overview of the technology available now, and for the future, to shape your dental implant practice and provide the confidence needed to help enhance your practice and improve patient outcomes. The digital protocol between the specialist, lab technician and general dentist will be illustrated step by step.

LEARNING OBJECTIVES

- Utilize digital dentistry to become more profitable
- Understand how digital dentistry can help differentiate and grow your practice
- Facilitate communication and comprehensive treatment planning with all members of the care team
SPEAKER

Dr. Movahed completed a doctorate in dental medicine from University of Medicine and Dentistry of New Jersey in 2007. He then completed an internship in Oral and Maxillofacial Surgery at the Brooklyn Hospital Center, New York. His residency in Oral and Maxillofacial Surgery was completed at Nova Southeastern University (Fort Lauderdale, Florida) in 2012. During the course of his residency he was exposed to the full scope of the specialty including maxillofacial pathology, dentoalveolar surgery, implant surgery, maxillofacial reconstruction, microvascular surgery, facial cosmetics surgery, and trauma. Due to his extensive interest in dentofacial deformities and TMJ disorders, Dr. Movahed pursued a fellowship under Dr. Larry Wolford at the prestigious Baylor University Medical Center (Dallas, Texas). In July 2013 he entered private practice at Oral Facial Surgery Institute (Saint Louis, Missouri), where he serves as an associate and attending surgeon to the fellowship program. In January 2014, Dr. Movahed has been appointed as a clinical assistant professor at Saint Louis University department of orthodontics.

Registration Policy

- Registrations are taken on a first come, first serve basis
- Registrations are not considered final until payment is received
- Your registration will be confirmed by email within two weeks of receipt
- Partial payment cannot be accepted

Cancellation and Refund Policy

Attendee Cancellation Policy
- Cancellation made 30 days or more before the course starts: Full refund
- Cancellation made 15-29 days before the course starts: 50% of the course fee will be refunded
- Cancellation made 0-14 days before the course starts: No refund
